

This Web Resource Guide is provided to you by the Pennsylvania Association of Student Financial Aid Administrators (PASFAA) through the efforts of the PASFAA Technology Committee. The World Wide Web grows larger every day and it becomes more difficult to locate the resources that are most helpful to you in your daily work. The purpose of this guide is to compile in one place a list of some of the Web pages that are most useful to those involved in helping students to achieve their educational goals. We hope you will find it useful.
