

Operations Policy #922
Automatic External Defibrillator

Purpose:

Sudden heart failure and irregular rhythms are particularly critical conditions that in many cases can be reversed thus preventing more serious damage or death while awaiting the arrival of the emergency support personnel through the use of an automatic external defibrillator. The Cyber School has such a device available.

Guidelines:

- The automatic external defibrillator is located in a special display cabinet in the technology room that is located in the center of the staff concentration and is in a room that is always open.
- The school nurse trains all staff each year in the use of the AED machine. This training is part of the First aid and CPR training the nurse provides annually.

Delegation of Responsibility:

The CEO is responsible for maintaining this policy and requiring all staff to adhere to these training sessions.

TO THE EXTENT THAT ANYTHING IN THIS POLICY COULD BE CONSTRUED TO CONFLICT WITH APPLICABLE STATE AND/OR FEDERAL LAWS, THE APPLICABLE STATE AND/OR FEDERAL LAWS CONTROL. THIS POLICY IS NOT INTENDED TO CONFLICT WITH CHARTER REQUIREMENT.
